Scan, Fill & Print pre-printed forms

## Overview

HRM departments save time, effort & money by automating the process of filling and printing pre-printed forms

By using nMadj you choose a predefined form, select data (from Excel or Access Lists or DB), and nMadj will fill the form and print it !!

nMadj is bundled with most common forms (Passports, Contracts, Manpower, Tax etc...) and you may easily add and customize new forms

## Benefits

Obvious cost effectiveness & ROI

Increased productivity. Accomplish in minutes what used to take days

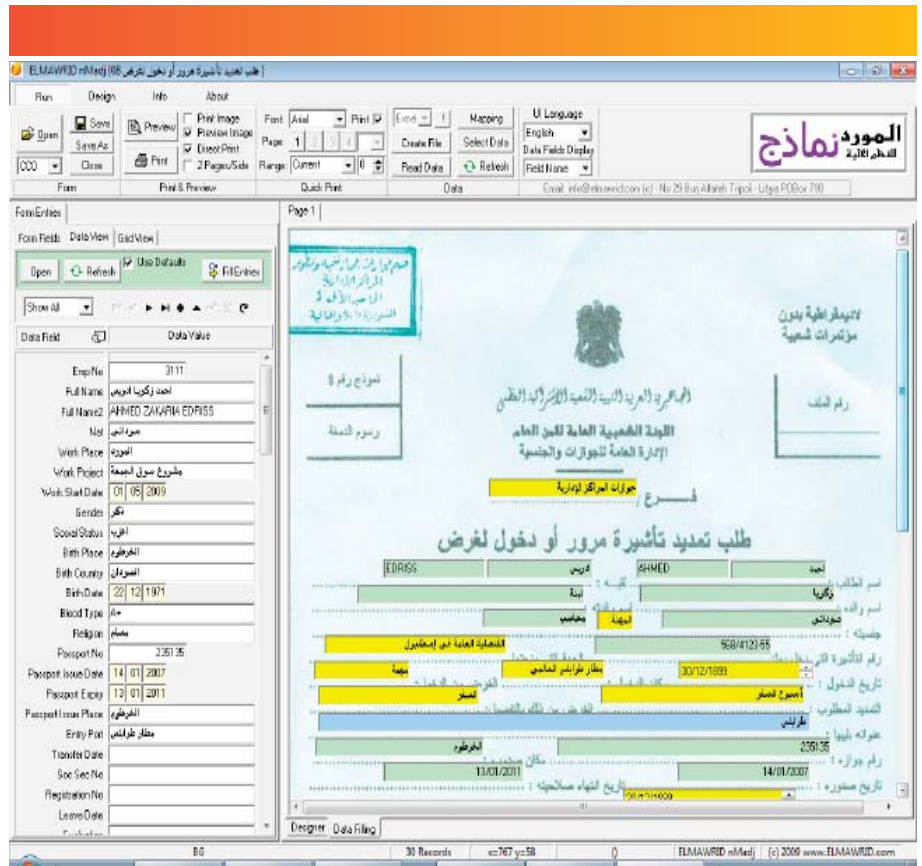

Centralised database benefits.

Data re-use ensuring reduced errors

Ensure security & privacy. Keep your data in-house

Quickly print batches for many employees

Deal with multi-page forms including tables

## Features

- 20 pre-built most common forms
- Supports forms with multiple pages
- Customise your own forms
- Support for tabulated data
- Connect to Excel or your HRM DB
- English and Arabic user interface
- Data entry in Excel or nMadj
- Supports batch processing

## Easy to use

Choose form / Select data / Print data on pre-printed form

## Successfully..

implemented by many companies including two major construction companies with 1000+ employees
